Power Point.

Dear Colleagues!

Welcome to Palma de Mallorca. In October 2014 we will host the 37th annual Congress of the European Academy of Facial Plastic Surgery.

The Balearic Islands are a group of four islands, in the Spanish Mediterranean sea, Menorca, Ibiza, Formentera and Mallorca.

The capital Palma de Mallorca is located on the island Mallorca and has 400.000 inhabitants. The Balearic Islands are very beautiful with numerous possibilities of entertainment.

The city is full of good restaurants and there are plenty of beaches and "calas", where you can enjoy life nearby.

The best lectures from around the world will give you the latest insights in the area of Facial, Plastic and Reconstructive Surgery.

There will be a focus on improving your skills on cosmetic surgery, practical workshops, including the possibility of fresh cadaver dissections, videos surgery demonstrations as well as dedicated courses to give you a more profound knowledge.

There also will be attention for developing marketing strategies for your practice.

We hope to see you there!

Manolo Tomás Barberán

President of the 37th annual congress of the EAFPS
